TO :   
Chairman, USCUL Working Group

FROM : William R. Dodge *JWS*  
Chief,  
Federal Research Division

SUBJECT: Staff Paper on Centralization of LITINT Exploitation  
Activities

DATE: 22 September 1978

The appended paper is so late it should be a better job than it has turned out to be. I ask you to remember that: 1) it was designed as an input to a final paper I assumed someone else would prepare, and 2) it was written mostly at home late at night over a period of three weeks. Neither condition does much for finished presentation or continuity of thought.
